PROFILE

I am a passionate full stack developer with a knack for crafting robust and scalable web applications. With nearlly an Year of hands-on experience, I have honed my skills in front-end technologies like React and Next.js, as well as back-end technologies like Node.js, PostGresql, and MongoDB. My goal is to leverage my expertise to create innovative solutions that drive business growth and deliver exceptional user experiences.

PROJECTS

Portfolio   2030 - PRESENT
Full Stack Developer

- Develop and execute comprehensive marketing strategies and campaigns that align with the company's goals and objectives.
- Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
- Monitor brand consistency across marketing channels and materials.

Invasion   2025 - 2029
Website made for IEEE-SCAOT

- A gaming website frontend page for the community.
- It was my first ReactJS project in a work level.
- A great community experience of working with some seniors and learning more and more.

DrumJS   2024 - 2025
Drum-kit Using JS

- The drum kit allows users to interactively play different drum sounds by clicking on the visual drum pads or pressing corresponding keyboard keys, enhancing user engagement through sound feedback.
